## Not your average government consulting company.

Paragon Edge is a Veteran-Owned small business and joint venture between CEdge Software Consultants and Paragon Technology Group.

Paragon Edge excels at providing a range of IT and enterprise management, planning, and cyber-security services. We work with U.S. government agencies like U.S. Transportation Command, U.S. Air Force Air Mobility Command, Department of Education, and Internal Revenue Service and commercial companies including healthcare and life sciences. What distinguishes us is our dedication to delivering value, to new ideas and leadership, to our employees, and to our customers' missions.

## Built to be nimble; positioned to be impactful.

Paragon Edge is built to be more responsive & innovative than larger competitors, while offering a depth of talent, capabilities, and experience that smaller companies just can't match. We work closely with our customers to explore all appropriate technology options to find the best solution.

This unique approach to systems integration, combined with our use of agile methodologies and open-source technology, gives our talented and experienced consultants the insight and tools they need to take government IT solutions to a whole new level.
